

USA Eastnet Amprnet Network/FlexNet Network Destinations

In the USA NorthEastern States Regions:

In the USA Florida Regions:

Rev. 2009-01-03

The following list of known destination calls are ax25 packet systems that *may* be linked to the FlexNet network.

Please note: Calls in this destination call list will *only* be included in network destination tables if they are currently operational and a route to them exist.

Most of these destinations calls are nodes running PC/FlexNet-Digi or Amprnet systems such as URONode which include FlexNet destination lists and connectivity. URONode also provides several other services such as axMail-Fax for sending and receiving E-Mail via internet, plus Net/Rom gateway node, DXCluster node, World Wide Convers and various TCP/IP services. Others are non FlexNet systems as indicated.

Destinations within the Northeastern States Region:

call #	ssid	user	notes	area	location
WMA Region:					
N1URO		145.05	-2 User Port		WMA Ludlow, Hampden County, MA
"	1-5		-1 FlexNet -2 DXNet -3 URONode/axMail-Fax -4 LinFBB -5 DXSpider		
"			FlexNet Encap Amprnet links to: N4GAA-1, N4LEM-2, K2LMH.		
"	6-10		3Net/xnet RF links to K1YON-2, W1EDH		
"	11-11		WW Convers		
"	14-14		MFNOS Mail/Gateway/FlexIP router		
CT Region:

A destination table with current network status info is maintained by each FlexNet, Xnet node and URONode system. It can be displayed by use of the <D>estination command. In this table all destinations, where the autorouter knows a way to, are shown.

This destination list can usually be found by use of the <A> command on any FlexNet-Digi node or within the FBB BBS Users directory of an associated bbs. Also at the Eastnet Packet Web Site: <http://www.eastnetpacket.net>

This list is distributed via the Packet Network whenever it has been updated with new information. Look for a Bulletin, FLXDST @ NESBBS

This list is maintained by Bob, K2BJG. Please forward: additions, corrections, etc to: Packet: K2BJG@K2BJG.#ECFL.FL.USA.NOAM
